

Northern CALIFORNIA

CONCRETE ROOF TILE COLLECTIONS

Asphalt Shingle

139°

attic temperature

Concrete Tile

94°

attic temperature

Why Tile?

NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Newpoint™ Cool Roof System to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

Material Matters.

BEAUTY MATTERS

Newpoint™ concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

DURABILITY MATTERS

Newpoint™ engineered tile is specifically designed for new build and reroof, helping provide Floridians protection from the elements.

VALUE MATTERS

Westlake Royal Roofing Solutions™ stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

SUSTAINABILITY MATTERS

Newpoint™ roof tile is locally made and sourced in Northern California.

Color Matters.

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Northern California. We take pride in the color quality and blending we provide.

3 STYLES

Newpoint™ concrete roof tile easily harmonizes with all three dominant architectural styles.

TRADITIONAL

American adaptations of regional home styles from other time periods or areas of the world. Often mixed references.

MEDITERRANEAN
TUSCAN
SPANISH MISSION
CRAFTSMAN / BUNGALOW
COLONIAL

TRANSITIONAL

Prefers the clean lines of contemporary architecture, but draws heavily on details and styles from traditional architecture.

RANCH / SPLIT LEVEL
PRAIRIE STYLE
MIXED LOOKS

CONTEMPORARY

Characterized by a preference for clean lines, open concepts, decoration, ample light sources, large windows, and lack of round forms.

MODERN
MID-CENTURY MODERN

Barcelona 900 | Casa Grande Blend

HIGH & MEDIUM TILE PROFILE COLLECTIONS

Barcelona 900

Barcelona 900 is designed to reflect the classic style and distinctiveness of Spanish architecture, popular in the early California missions that stretched from Santa Barbara to San Juan Capistrano.

P. 13

Boosted Barcelona Caps

Available installation application of Barcelona 900 which creates the appearance of an authentic mortar-boosted tile.

P. 17

Villa 900

Emulates beautiful Mediterranean styles found in Italy and Southern France.

P. 19

Villa 900 | Desert Sage

Barcelona 900 | Monte Sereno Blend

Barcelona 900 | Brown Blend

Saxony 900 Slate | Stone Mountain Blend

LOW PROFILE COLLECTIONS

Saxony® 900 Slate

Beautiful design representative of styles found in England, Northern Europe and the US Eastern Seaboard. Versatile enough to accentuate any architectural style.

P. 23

Saxony® 900 Country Slate

Unique beveled edges precisely define each roof tile for a staggered appearance, while its distinctive slate texture accurately reproduces the appearance of its natural counterpart.

P. 27

Saxony® 900 Shake

Captures rustic beauty of hand-hewn shakes. Ideal for French Country, Victorian Craftsman or Cottage architectural styling.

P. 29

DESIGNER PRODUCT

Saxony® 900 Hartford® Slate

Hartford® Slate receives a surface texture designed to emulate the surface of natural slate. Natural slate is the traditional roofing material used for homes in the Eastern States, Great Britain and Northern Europe.

P. 35

DESIGNER PRODUCT

Saxony® 900 Split Old English Thatch

Split Old English Thatch combines the look of a natural slate with the varied appearance of a hand-hewn split tile capturing the charming architecture of an old English countryside

P. 37

DESIGNER PRODUCT

Madera 900

Madera 900 is the most affordable, authentic replication of a hand-split cedar shake roof available.

Code Approval: Some approvals are regional and only apply to locally produced products; please contact Newpoint™ before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require special testing and recognition. All tiles are Class A fire rated.

Disclaimer: The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

Installation: According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Concrete and Clay Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.

ABOUT WESTLAKE ROYAL ROOFING SOLUTIONS™

Westlake Royal Roofing Solutions™ is the combination of DaVinci® Roofscapes and the former Boral North America roofing product lines. The company is a recognized, national leader in durable and sustainable clay, composite, concrete, and steel roof systems and components. The company’s offerings include US Tile® products, a legacy line of premium, stunning clay tile solutions manufactured to the highest standard of sustainability and craftsmanship: DaVinci® Roofscapes, beautiful and durable composite slate and shake roofing tiles; Newpoint™ Concrete Tile Roofing, the enduring line of concrete tile known for its superior strength, Class A fire rating and long-lasting beauty; Unified Steel™ Stone Coated Roofing, the ultra-lightweight roofing system which benefits from the structural strength of steel; and Westlake Royal™ Roofing Components, a full line of integrated roof components designed to deliver a higher standard of roof installation and performance.
